Above Average Progress	Average Progress	Below Average Progress
<p>If the lower bound of the school's confidence interval is greater than zero, it can be interpreted as meaning that the school has achieved greater than average progress compared to pupils with similar starting points nationally.</p>	<p>Where a confidence interval overlaps zero, this means that the school's progress score is not significantly different from the national average.</p>	<p>If the upper bound is below zero, then the school has made less than average progress.</p>
